

I'm not robot!

A course book for teenagers from 11 to 16 years that covered A1 to B1 of CEFR. 'Adosphere' adopts an active approach based on tasks that, as their name suggests, encourages students to immerse themselves in the lives of adolescents who appear in books. It puts a strong emphasis on the development of the independence of the students by making them aware of different learning techniques that could benefit them and encouraging them to evaluate their progress regularly. 'Adosphere' is easy to follow and use and offers teachers and students a large amount of additional digital material so that the learning process is more attractive and interactive. To observe the structure of this course with more detail, click on the following link: [OADSPH](#). Br. - You can download the document by clicking on the upstream. It places a strong emphasis on developing the independence of students by making them aware of different learning techniques that could benefit them and by encouraging them to evaluate their progress regularly. 'Adosphere' is easy to follow and use and offers both teachers and students a lot of extra digital material to make the learning process more attractive and interactive.
