4g browser app for mobile. Best browser app for mobile. Uc browser app for mobile phone. Chrome browser app for mobile. Browser app for mobile. Download browser app for mobile. Uc browser app for mobile. Browser app download for mobile mi.

View all integrations The move to BrowserStack has been a force multiplier across all teams. Take screenshots of the issues and get detailed reports to analyze and fix the issues quickly. Perform manual and automated cross-browser testing from anywhere, anytime. Interactive Cross Browser Testing Scalable, Automated Website Testing Interactive Mobile App Testing Scalable, Automated App Testing Get massive test coverage Test in dev environments Debug instantly with in-built tools Test sites from different locations/countries Learn More Get massive test coverage Integrate with leading test frameworks Debug instantly with in-built tools Accelerate build speed with parallelization Learn More Test Responsive Design on Real Devices Access industry-best rendering ability Achieve seamless CI/CD Integration Review collaboratively with your team Learn More Test on latest iOS & Android models Access Mobile DevTools within tests Test on dev environments Access native device features Learn More Test on latest iOS & Android models

Integrate with major test frameworks Debug instantly with in-built tools Accelerate build speed with parallelization Learn More Zero setup and in-zero maintenance to speed up releases. Integrate with Jenkins, Bamboo, Jira, Azure Devops and more. Get that competitive edge through our 3 pillars - speedy test creation, execution stability, and faster execution. Interactively test and debug your websites and mobile apps on our wide range of desktop browsers and mobile devices. Instant access to 3000+ browsers and real iOS and Android devices. Features overview We've made it easy for you to integrate TestingBot with the other products you are using. Run automated tests on every commit from your CI/CD pipeline, and get test results directly in Jenkins and Slack. Every month our customers run more than 6 million automated and live tests with TestingBot. Test your native and hybrid apps out of the box on internal development and staging environments. We work with the tools and frameworks you use. Or install production apps from Play Store/App Store and start testing. No credit card required! Test on a range of real devices including iPhone, Samsung Galaxy, Pixel, Nexus and more on multiple Android and iOS versions. TestingBot has been providing one of the first cloud-based Selenium, Appium and Cypress Grids and has been improving its service ever since. Just played around with BrowserStack: Quite cool, instant access to a browser in a VM with dev tools. From running tests at every stage to integration with popular CI/CD and collaboration tools to scale up your web and mobile app testing seamlessly. @BrowserStack is making moves by revamping their #opensource program! We have been testing with them and now can really make moves with some of their new initiatives. View all integrations Start testing your apps with TestingBot. Learn More Skip to main content Give your users a seamless experience by testing on 3000+ real devices and browsers. Tap, scroll, zoom, swipe and more. With over 9 years of experience, our App and Browser Testing service is powerful, easy to use and provides you with a big number of features tailored to help you improve your product. Go beyond emulators to get the most insight into the real user experience. Give your users a seamless experience by testing on 3000+ real devices and browsers. But for successful continuous integration and continuous delivery, you need right automation strategies. Debug your app, view crash reports and logs, inspect UI element, and use stacktrace to find and fix bugs instantly. Big thanks to @browserstack for letting me use theirproduct for free to fix browser issues in React DnD. View all features English, Afrikaans, Albanian, Arabic, Aragonese, Armenian, Asturian, Azerbaijani, Basque, Bengali, Bosnian, Breton, Bulgarian, Burmese, Catalan, Corsican, Czech, Danish, Dutch, Esperanto, Filipino, Finnish, French, Gaelic, Georgian, German, Greek, Gujarati, Hebrew, Hindi, Hungarian, Icelandic, Indonesian, Interlingua, Irish, Italian, Japanese, Kabyle, Kannada, Kazakh, Korean, Koryakoro Senni Songhai, Laotian, Latvian, Lithuanian, Lower Sorbian, Malay, Marathi, Nepali, Norwegian Bokmål, Norwegian Nynorsk, Persian, Polish, Portuguese, Romanian, Russian, Simplified Chinese, Slovak, Slovenian, Spanish, Swedish, Tamil, Tatar, Telugu, Thai, Traditional Chinese, Turkish, Ukrainian, Upper Sorbian, Urdu, Uzbek, Vietnamese, Welsh Device Labs Browser Labs Rapid Automation Automation Execution Test Analytics DevOps 2000+ real device browser combinations available on our public cloud, for successful mobile app testing, or use Private or On-prem version for your enterprise. Pristine browsers and devices available for everyone, every time. With root cause analysis, know what went wrong so you can submit bugs with fast feedback to fix them earlier in the cycle. Change the screen resolution and test web apps on the local network using the Wildnet feature. Leverage 15+ native device features like GPS, network simulation, localization and more to replicate real user conditions. Interact with your mobile app on the remote device, just as you would with a device in hand. Get the most accurate results by testing mobile and web applications on the latest devices to ensure awesome customer experience. Brian Lucas Senior Staff Software Engineer Trusted by 50,000+ customers globally You will be hearing from us soon! Test development code from Visual Studio and beta apps from App Center. Upload, test and collaborate on your dev APK/AAB/IPA files. Don't compromise with emulators and simulators. Learn More Get access to everything that a DevOps team requires to develop, implement, and maintain test throughout the Continuous testing in DevOps pipeline. © DuckDuckGo. • Privacy, simplified. Report bugs directly to Jira, and reproduce them with a click. SOC2 compliant. Learn More Test websites and web-apps on various browser-OS combinations on real machines. Instant access to over 3600 browsers and physical iOS and Android devices. Learn More Get the elastic scalability and high velocity test execution support from pCloudy by orchestrating large testing suites across platforms for proper distribution of tests. Learn More The right balance between quality and speed can be achieved by implementing successful continuous testing. Deliver an exceptional user experience while saving time and resources. Shorten your release cycles and get high ROI on your automation with parallel testing on unlimited devices and web browsers Learn More Leverage to the power of progressive reports that can speed up your testing process multi-folds with its detailed analysis on why tests failed and how to fix them.
