Lego batman 100 completion guide

Break into the third cell and smash the insides and build a fan out of them. It will destroy the controls and open it for you. Each has its own story mode to complete, but the game isn't over after you manage that. You should also use the torpedoes to destroy the yellow toxic drums which will clear out the water for the sub to move around more. Defeat all the thugs and then destroy the Lego objects to the far right and put together the spinner. Climb this and jump start the machine with the Joker. To the back left you'll find a mine dispenser. Then, grapple up to a catwalk. Now, send a penguin bomb marching into the diamond's room and it will bounce off the walls and destroy the control panel and free the diamond you for the taking. Build a machine out of the pieces that appear and then jump start it with the Joker to open the elevator and take it down. Run along the ledge to the far left and shoot the lock with Two-Face to lower a ladder. Drive to the left and smash the silver create blocking the grab bars on the back wall. You should have also built a second matching speaker and a disco ball above the dance floor. Have Batman push the spinner and Robin will run to the right and stand next to the red wheel. Have Robin change into the Technology Suit then build the tech controls on the right side of the building. Pull the lever to raise the platform while standing on it. Stand on the stuff that spills out and hop on top of the safe. You'll pop out in a bathroom. Ride the fan to the balcony and pull the lever. This page is a walkthrough for Lego Batman: The Videogame. You'll notice that there are a few guys in baseball-type hats that can't be attacked, these guys are on your side so don't worry about them. Once you've hit her enough the level will come to an end. Climb down and float over the gap to the right with the Penguin and pull the lever. Dancing bits will appear in front of them one at a time. Break the couple Here then build a small brown box and then push it from the ledge. There is another chief after killing two-face and then kill the failure, now you are about to build a shield, break all the gold you can find, and continue to build to do so, make the failure that shoots it, and then sauté down, then attack him a couple of times. Bane can also walk through toxic waste, so it makes it crazy and pulled to open the manhole to drain all the waste. Get Batman go up there (and Robin), now get up there using the monkey bars, now you're on the roof of the building, pull the levers. He jumps down to proceed. Switch to him and run around the ledge to the left. When you check the man, use the man to push a red pusher n green, continue pushing until a door opens. Take each box and let them fall on the two pressure plates to extend the bridge for the scarecrow to cross. Now, jumps and slips over the gap to land on the platform on the back and defeat the thugs. Now you will have to face Gordon commissioner. Boys at the balcony Once you canceled the area and follow the balcony on the right. Take it right and use explosives to explode everything that is glossy. He uses the penguin to jump and float towards the roof to the right and build it another for Catwoman to cross. Now he pulls the lever to open the big gate. Hack it with a mine to make a missile tower. At the bottom right of the next area, you will find another dish of costume destroying the bins. Push the color box from the ledge and build the explosive and the plunger out of it on the ground then set to cancel the barrier. Push the spinner to move the taking point on the other side to Robin, then push the spinner in the opposite direction to bring Robin to your part. Go up and build the generator The point of the frame. Destroy your way into the room here and destroy all the objects. Now it makes you way through the water to the right. After some successes Start flying around. Break the plant vessels on both sides of the door, then build a spinner to push you to open the door for you. Hero Missions Level 1: Á. Riddler's revenge that you can first on Batman's bank, you will have to defeat some gooms of riddles. Here, you will have to get on top of the box and then build a grip point. Proceed through the gate and the building. Push it back against the wall where it will be transformed into a lever. Smash through televisions in the back and joker grabs on the bars while the moth is on the plate to lift it. The extinction of the night now the Joker will be founded with the murderer moth. He makes you way through this hole with Batman and Robin. Follow the right path. Blow more kisses in the rod to the right of the massive monster plant. Head to the left and have Croc Remove the door then have the penguin jump and float through the gap on the left and turn on the generator there. Follow and Quinn will be in his hammer truck. Once the monster plant is completed, he uses the ivy to ride him and destroy the gate to the right. The company of the zoo starts going straight and breaks into the building in the middle. Three colored lights will appear. Pull the levers on both sides of the gas at the same time to open the door below. With the broken ground box, use the dancing bit to finish the construction of the sliding platform. Assemble the water guns from the broken wall and then use them to pass through the toxic gas and salts on the pressure plate in the middle of the first two toxic air flows. Now you will face the ivy poison. Destroy things and build a costume plate for Robin. Stay on the valve, so the mind checks the boy in the room through the gap. Build the robot. Build a vehicle out of the bits and drive it to the left. Now build a back turtle and then Robin technology controls it via the green control panel on the left. Build the spinner near the front of the area and then push it to connect the bridge over the water. When both characters are standing on the pressure plate, it will trigger a hammer to hit the bell to let out enemy and retreat to a higher platform'. Inside the vault, use two-face to walk through the toxic in the left back and pull the lever. Try hitting it by setting an explosive if you still have Batman demo. You will learn how to use the batarang - hold down the attack button, then highlight the objects/enemies you want to attack and release the Attack button to launch the batarang to the enemy. Battle Battá© now that you will face against the supercraft of Penguin. Drop Down and Finish Building The elevator with parts from broken objects, so both characters stand on the elevator buttons to ascend. Jump on the railing to their left and assemble the small car on the platform and a lever will prove forward on the brown pillars. The sub-sub can go under the water by pressing the jump button and can use the torpedoes by picking them from purple outlets around the level. In the first area, you have to destroy everything you can. Use the variety of clothes you find along the way to help you progress. Both characters jump and grab the platform pull it already' and destroy a hole in the roof. Collect these torpedoes and hit the rocket turret near the fan barrier. Hit each one once to expose the three weaknesses. You have to stand on both white tiles at the same time. Go to the penguin and send a Penguin through the lower kittinging space and sauté above and destroy the silver lego. Keep the circle button to blow the poisonous kisses in the cane of hearts to grow a floral platform. Climb the ladder and go up on the roof. Once the Dozer is built, guid it to the left and destroy the ice with it. Remove the guards, then build a bit spinner broken by objects in this small area. This will make the buckets hard so you can overcome. Have the riddle to knock at the window to receive access to proceed. Use the locking radius and shoot the sparkling washes of the lava to make it harden in a platform. L even, you will do the same thing, but you have to find everything possible to destroy. Climb the ladder and jumps the jump to the roof. Façli pull the vent background to make the upper part of the portion that will allow you to proceed to the right. Use the Batman Boomerang to transform all green switches and red flashing cameras turn to clifface and sprinkle with gas. Build the plate and change in the magnetic dress. Swim quickly on the water and build the lever in the corner and pull it to turn the ramps in stairs. It should have filled the big dry on both sides with lava but they will have floating platforms in the middle of them. It makes you way through this roof to the right and go down until next.
