Page 2 A Published July 16, 2017 Playing this game these days, I've been thinking about the need for at least one more card. The main reason is that we need to catch almost 800 Pofomon. Imagine you've reached ason ? and need to complete your Pokedex. It will be very difficult because we will have to search among the Pokémon of ALL previous seasons, Maybe the players are busy making leaderboards, but for me the ultimate goal is to complete the Pokedex. The design is intended to make it easier to find Pokémon throughout the game. The new map will help reduce the overridding of Pokémon from different seasons when searching. For example, a map specific to error types or normal types. What do you think? I love this and I more Pokemon is one of the most popular gaming franchises in the world. It's technically a JRPG, but it includes 3D augmented reality and a few other genres. So there are many games similar to Pokemon. In this list, we will focus on two main types. The animal-collecting RPG you see on handheld consoles and the card game you see in real life. Of course, there are real Pokémon games on mobile devices now, as well as several Pokémon apps. Click on the links for these listings. Here are the best games like Pokemon (but not Pokemon games) for Android. Top games like Pokemon for Android, Beastie Bay by Cairosoft and this is one of themore underrated games like Pokemon. This game is a mixture of monster capture and simulation, so you will have a lot to do. On the simulation side, you build a city, grow crops and manage all its resources. Then you go out into the wilderness, catch beasts, trade with them, and fight with them. There are a lot of games here and they should keep you busy for a long time. This is a free game, so it contains some unwanted elements. Overall, Cairosoft handles this well. Also See: Best Simulation Games for Android Bulu Monster is a little closer to the actual Pokemon experience. You decided to catch various creatures and then throw them to other players. The game has over 150 monsters in total, along with 50 NPC monster trainers, 14 different maps to explore, and a storyline for players to follow. It has online PvP as per the norm, but it can be a bit fickle. It's a free-to-play game, but it's fun to play for a decent amount of time. Clash Royale is a dueling game and more like a variant of the Pokemon card game. Players create a collection of monsters from the Clash of Clans universe and battle them against other players in online PvP. You can get different cards by completing games and leveling up. There are also many arenas, a clan mechanic for people from the community and more. The game is also incredibly popular, so there's plenty of content on Twitch and YouTube as well. Hearthstone is another great, very popular dueling game. You can choose one of them. Digimon is one of Pokémon's biggest competitors, and Digimon ReArise is the latest mobile game in the Digimon universe. This game has a story, lots of Digimon to collect and lots of online players to duel with. It takes place outside of the typical Digimon universe and focuses more on the Digimon and Trainer relationship. The game had poor performance on first launch due to optimization issues. Most of themit went and the game is really good. There are plenty of older Pokemon games for mobile that are no longer available for purchase. Therefore, it is worth trying them in the emulator. There are some decent ones like John GBAC Game Boy Color and DraStic DS emulator for Nintendo DS. Recently, Citra (still in beta) has also launched on the Nintendo 3DS. Just download these emulators, find games and play. Most emulators have basic features like scrolling modes, save and load states, cheat support, and more. For a long time, this was the only way to play Pokemon on mobile, and it's still a great way to play the classics. See also: Best Android Emulators to Play Old Favorite Games Price: Free / \$0.99 - In-App Purchases EvoCreo is as close to a Pokemon clone as you can get. In this JRPG, players start collecting monsters, fight other triggers (trainers) and progress through the story. The creators boast a 40-hour campaign and about 130 monsters to capture and evolve. It also includes a cross-platform multiplayer mode and the ability to customize monsters according to the developed strategy. This is a paid game with in-app purchases, but in-app purchases are completely optional. Legends of Runeterra is a dueling game from Riot Games, the creators of League of Legends. This game is similar to Clash Royale and Hearthstone. Players collect cards and build decks around their favorite hero. From there, you can fight people online, improve your strategies, collect more cards, and even fight with your friends. There are 24 heroes in total, and the game involves less risk of random numbers than most games in this genre. It's newer, but pretty good. See also: Best card games for Android MonsterCrafter is one of the most unique games like Pokemon. This game allows you to create your own monsters instead of giving you a certain amount to collect. It uses the same art style as Minecraft and gives players a lot of options.modular design when it comes to their monsters. You just create a creature and then fight it against other players. The game is free to play, but it's definitely a neat space with lots of potential customization options. Price: Free Demo / \$19.99 Monster Hunter Stories is like Pokémon for grown-ups. It's a complete JRPG with a story, great mechanics, and more. It's a fairly accurate port of the 3DS version and doesn't miss any important part of the game. The free demo is actually an introduction to the main game, and if you decide to buy it, you can transfer your save to the main version. It's quite expensive at \$19.99 but doesn't require any additional in-app purchases to make it work better. Most complaints are minor, especially with recent updates that fix a lot of issues. The demo is linked by the button below. See also: Best Android RPGs for JRPG and Action RPG Fans Price: \$0.99 with in-app purchases. Neo Monsters is another Pokemon clone. The game offers six different worlds and plenty of things to do. The creators say that there are almost 60 hours of gameplay here. Combat includes four-on-four battles with up to 16 monsters. It's a little more than your standard Pokémon game. You also have to collect over 1000
