Kingdom come deliverance monastery quest guide

I told Antonius about my search. I came back the things I had to surrender when I entered the monastery. 2. You can find a lockpick behind the altar. Where can I find blood in a monastery? I should try to find out the truth of it. I talked to Antonius, who holds that he is from Vlachim. Or I could bring him to the justice. I killed pious. He holds him low relief and considers them that he is capable of anything. What do I need the keys? It was a red herring. The main line of missions is reasonable, but most side missions are slow and tedious subjects. Go to the kitchen and use the piece of paper lying on the table. He was hiding in the monastery as a novice Antonius. To help Antonius escape, I have to get a little blood so we can pretend a pleasant and juicy murder. He told me to deliver him to the justice. To make it seem like I held my part of the bargain with the bad guys, I had to pretend his murder, for which I had to get fresh animal blood from the monastery's kitchen. The struggles are few and distant between. Me and Antonius - this is, pious - left the monastery together. Drink it! This task was really looked like a needle in a haystack - to enter the monastery, find out which of the beginners is pious, confront him and ... deal with him as my aware dictated. In fact, it was this mission that finally turned on a small lamp in my head that said, "Do you know what a companion? I did this, I'll have to steal them from the previous one. Wait for the coma with the other goals of cloister mission. But let me explain my monastery's experience: I sam sam ,sessop sahnm ed ritsided euq ohnet ue ,ol-edacnesed omoc rebecrep arap ocuop mu em-avel ,orietsom oa map doesn't show depth for quest markers and it takes me awhile to find the correct box to place my stuff in (it was the room downstairs). The so called 'immersive' game is mostly a mess, with dumb AI that can see through walls and have some kind of sixth sense to know when you've committed a crime, and even goes so far as to make up crimes you didn't even commit. I ordered the blood, now I just have to wait until it arrives. Antonius is Pious, but I've decided to let him live. Pick the following dialogues: What deal? Quest log updated:Siskin claimed the things he had in his secret stash were mementos of his life outside the monastery walls - the dagger he got from his father and the coin he stole from his home when his family forced him to enter the monastery against his will. Now, I just have to take it to the bandits. Now I've been playing the game for half an hour, most of which was running around like a cretin searching for Brother lockpicks and listening to walls of text from some extremely boring old monks. The fastest way to find out which one is Pious (yes, it's Antonius) is: 1. When you get outside, you can decide if you want to let Pious go, arrest him or kill him. Quest log updated:Novice Siskin stashed away coin and a dagger in the monastery. The monastery doesn't just let people come and go as they please. After evening mass, I need to meet Antonius in the dormitory. The news got of the monastery that a monk was murdered, and that's all I need to convince the recruiters. Let's do it your way. Well! If it was him. I agreed with Antonius - that is, Pious - that I wouldn't kill him, but help him to escape. When you wake up, a conversation with Novice Antonius a.k.a. Pious will begin. Now I have to decide what to do with him. I've killed Pious. However, this means one of the other novices must die -- that's the only way the bandits will hear about a murder in the monastery and believe I killed Pious. They To meet as agreed, we talked and gave them pity. I have brought everything for Antony that we will need for our journey together - blood, a wineskin and a way to unlock the door. I suck it up and go through my daily routine again, prayer, breakfast, chores. This game is no fun. And it's true, the game is boring. Before I entered the monastery, I left all my possessions in a trunk with Brother Porter. Siskin suggested that Jodok might be what I am looking for. I will need the keys for the door or at least some lockpicks. 6. That's fine. All I can say for sure is that I never want to go back to the life of a monk. Of course having looked around the kitchens and surrounding area for a while I was stopped by the circumciser three times, which means it's back to jail and all my ae AY AY AY AY AY AY is taken away again. He thinks that Siskin might be the one I am looking for. I killed Siskin - I thought he was probably pious. Siskin was a false trail - he is definitely not merciful. Could the stock containing a dagger and coin be connected to my investigation? You will find the key in the small storage room. While the other monks were at dinner, Antony and I gathered in the dormitory to discuss our escape from the monastery. I did as he asked, and now pious is in prison awaiting trial. If you get stuck godly, your stuff will automatically land in your inventory. I prepared more Lazarus potions to sell to the lockpicks and go on the hunt for the unspeakable lockpick seller, he's always around at breakfast, but I can't buy AY AY AY AY AY AY Since he without something to trade - I'll just have to blend in here and look for any clues that might lead me to him. There are four suspects: Antonius, Jodok, Siskin and Lucas. But I get caught and my items are and I am sent to jail. Go to the dining area, sit down and start eating. I agree. I know everything I need to know. The rookie I killed was not merciful, but no one will ever know. So that's it.
