adds and changes existing recipes in minecraft for some of the items which require more but give less. It is also provided with some new crafting recipes also. For a kick start in survival world, this helps you get the things done correct and effective. Main Crafts - v2 You can now uncraft Diamond, Gold and Iron Armors back into their ingots. You can now craft Stone Tools with all type of stones in minecraft. From now, The blocks like Stone, Deepslate, Granite, Diorite... can be used for crafting stone tools. Raw Ingot Blocks like raw iron block, raw copper block and raw gold block can now be directly smelted through a furnace. We can craft new 1.21.5 Lodestone on 1.21.X (any versions). Save that one Netherite Ingot
