# Crystal reports totext too many arguments

Crystal reports totext too many arguments have been given to this function.

Today - (@DateOled}) Drdate: String (8) CB.DTA: number I'm not sure what to do with the CGIDR.DRDATE field so I can use it in the formula below. I have a simple formula that can be found below in Crystal Report: IIF (ISNULL ({Employee.CreatedDate}), "", ToText ({Employee.Createddate}, "DD-MMM-YYYY")) the {Employee.createddate} is in Bottom Format: 09.02.2015 10:48:25 Works well when {Employee.CreatedDate} is null, but when is not null, the error message is displayed below: too many arguments have been given to this function error in the EmployeeSeinFO .RPT file: Error in TxtDate Formula Extraction of "DD-MMM-YYAY" does not solve the problem, but I would like to format date format "DD-MMM-YYYYAY", that is, "09-Feb-2015", what is wrong with the formula?
