You don't have to complete one game to play the others. You can explore and play any game you want. Stickman Party is a great game for all ages. It's also a great way to kill time and have fun. The app has more than 40 mini-games that are constantly updated. You can also play mini-games offline. One-touch controls make it easy for everyone to play games. Stickman Party features a library of different mini-games that four players can choose and participate in. Each mini-game has a different environment and rules that players need to pay attention to, which will surely help players change their experience. At the same time, depending on the characteristics of each game, the time players experience it also varies, and some support mechanisms will be useful to you. INCREASE MINIGAMES AVAILABLE Stickman Party users will be able to find many minigames with different gameplay. These minigames are designed for multiple players to play locally on the same device so friends can enjoy fun minigames together. At the same time, the control action in this game is fully accessible thanks to the joystick placed on each corner of the device to control and move the character. CREATE A LARGE SNOWBALL TO CREATE ENEMIES Players must not miss the first game Stickman Party, a snowball fight in a limited area. You will notice the difference between the traffic zone and the danger zone to move properly. At the same time, each move helps the player collect a snowball and then use it to push other players out of the safe zone to win. In addition, holding a snowball in your hands significantly reduces the risk of falling. WELCOME SO MANY CHICKENS When you get bored of the snowy place in Stickman Party you will be taken to a farm with a chicken coop where many chickens will always avoid you. You will try to move with them and bring them back to the smaller chicken coop and four people will compete with other players to catch as many chickens as possible. At the same time, the game screen ends when the chickens are placed in all four players' cages. COLLECT ITEMS TO YIELD Players are still moved to a spacehand in hand in Stickman Party and your task is to collect the necessary items. These items will have different points, and the points will be the basis for each player's victory. That being said, the number of mushrooms you collect will usually be more than the gold ones, and if you're not careful, some items will cause a paralyzing effect that will make you unable to move. MOVING TARGET DRAWING In the next level, the player draws a game in which four players take their positions and see moving targets. Players will determine the direction of movement and make accurate shots. At the same time, every accurate hit will help the player score points over time and the player will actually face many mishaps as the targets will move on a different rule that the player will try to recognize. BECOME A KNIGHT AND BLOON BALLOONS Players become knights armed with items such as a pointed spear and need to find balloons that match their color. They will try to pop it to get points, and popping balloons of the same color will make the player lose points. At the same time, the player can also find a rainbow balloon, the effect of which is that the balls on the field become the same color as the ball of the player who pops it. AVOID THE BIG ROCKS The game requires the player to watch and move carefully as the rocks keep moving in different directions. They have a completely different size and, of course, quickly disappear with a light touch on the player. So this is one of the hardest games and it goes faster than the rest of the game because anyone can disappear at any moment. Players will enjoy a library of various mini-games: The mini-games in this game have interesting gameplay and allow multiple players to play on the same device with simple controls. Players will be able to compete in snowball fights and create other players with a big snow globe. Collecting items will require players to find ways to increase their score, and painting levels serve the same purpose. Players can turn into a knight and try to pop certain balloons or catch as many chickens as possible in their cage. Rocks of various sizes will constantly come your way and require you to avoid them to avoid failing the game level. level.
