“You asked me if I’m in the money making business or the meth making business. Neither. I’m in the empire business,” this quote said by Bryan Cranston’s character Walter White on the hit action/drama television show “Breaking Bad” shows just how insane drugs can make a person become. Although, in Walter White’s case, he was not even taking drugs such as methamphetamines, he was producing it. That alone goes to show just how easily an illegal drug like crystal meth can affect an individual. Thesis: One of the most dangerous crimes being committed during the 21st century is the production and selling of methamphetamines. Methamphetamines have been proven to be a link to many other different crimes over the past decade and are becoming a major problem for many people in many different ways.

What exactly are methamphetamines? Methamphetamines, or meth for short, are a chemically addictive stimulant. It can be used many different ways, including snorting, injected, through a glass pipe, etc. Crystal meth (which is another nickname for it) is in the same classifications as cocaine as well as other street drugs and is created in illegal labs using chemically altered over-the-counter drugs. It is extremely dangerous for the person cooking the meth and for those living near or around the area where the meth is being cooked due to hazardous vapors. This drug has become increasingly popular in the

current century. Though it is used by all ages, one of the more common uses for it is as a "club drug". Meaning parties, raves, and celebrations of that nature.

The process of cooking and then selling crystal meth can be described as long, difficult, and dangerous. The cook undergoes a long and strenuous process of chemically altering various dif...
