

Innovative Technology: Google Glass

The screenshot shows the EssayPro website. At the top left is the EssayPro logo and navigation links: "How To Order", "Reviews", "About Us", and "Write My Essay". At the top right are links for "DBA: EPRO", "Log In", and "Sign Up". The main banner features a student sleeping at a desk with the text: "WRITING SERVICE AT YOUR CONVENIENCE", "You - Send us your homework", "We - Do it all for you", and "Grab your original paper for just \$10 per page with a free plagiarism report included". A "Write My Essay!" button is present. A "Calculate the price" widget is overlaid on the right, showing options for "Writing", "Rewriting", and "Editing", with "Writing" selected. It also shows "Essay (any type)", "College", "2 weeks", "1 page / 275 words", "Double spaces" (selected), and "Single spaces", resulting in a price of "\$11.4" and a "Write My Paper" button. Below the banner, three review sections are shown: "EssayPro Reviews" with a 4.9 rating, "ResellerRatings" with a 4.9 rating, and "Sitejabber" with a 4.8 rating.

Google has made an effort on making a new device called Google Glass, which is innovative device that has people visioning ways to enhance the product by communicating with people but not all are convinced due to the invasive privacy by the documentation of using video recordings at anytime hands free and the safety and health of yourself and your surroundings. It's also a tool to reduce crime with first person view.

[Google](#) Glass is a revolutionary new wearable computer communication product. The Google Glass includes most of what a smart phone can function, for example "Bluetooth, Wi-Fi, GPS, speakers, a camera, microphone, touchpad"(Brian Voo 1. Tiny (But Powerful) Hardware). Best of all it is compatible with IOS (i.e iPhone) and Android Devices. Google has made a technological advancement in communications, which made contacting and connecting to social media and information simpler, such as GPS capability which "help you navigate, with help from Google Maps"(Brian Voo, 5. Never Get Lost Again), record videos on the webcam using "data connection from your home or smartphone."(Brian Voo, 4. Always On Call, Literally) And hands free with the use of the voice commands that "allows you to dictate text messages, attach videos and pictures along with and sending it via your mobile data connection, without having to remove your phone from your pocket." (Brian Voo, 4. Always On Call, Literally)

This device has made a big advancement to today's technology which has enabled better communication between the people we work with, bring even closer to friends and precious family members around the world. For the people who work in offices for example, can use Glass to do conference calls through the use of Google Hangout (similar function ...
