

Information Technology

The screenshot shows the EssayPro website homepage. At the top left is the EssayPro logo and navigation links: 'How To Order', 'Reviews', 'About Us', and 'Write My Essay'. On the top right, there are links for 'DBA: EPRO', 'Log In', and a blue 'Sign Up' button. The main banner features a student sleeping at a desk with a cup of pens. The text reads: 'WRITING SERVICE AT YOUR CONVENIENCE', 'You - Send us your homework', 'We - Do it all for you', and 'Grab your original paper for just \$10 per page with a free plagiarism report included'. A blue 'Write My Essay!' button is present. A 'Calculate the price' widget is overlaid on the right, showing options for 'Writing', 'Rewriting', and 'Editing'. The selected service is 'Writing' for an 'Essay (any type)' at 'College' level, '2 weeks' delivery, and '1 page / 275 words'. The price is '\$11.4' with a fire icon. A 'Write My Paper' button is at the bottom of the widget. Below the banner, there are three review sections: 'EssayPro Reviews' with a 4.9 rating, 'ResellerRatings' with a 4.9 rating, and 'Sitejabber' with a 4.8 rating.

Information technology is a term that is used to encompass all forms of technology that is used in creating and storing as well as exchanging and using information in its various forms. These are numerous forms that IT can be used for and these can include still images and motion pictures as well as multimedia presentations and [business](#) data. The term IT is convenient as it can be used to include both telephones as well as computer [technology](#) under the same banner. Information Technology is the driving force of what has become known in certain circles as "the information revelation". This essay will focus on Information technology in society and the day to day impact that Information Technology has had on our lives and how different organisations have adapted to the changes and developments in Information technology and how are society at large now depends on these advances for day to day life.

In the last ten years society at large has been hugely impacted by the advent of the computer age and Information Technology developments. They have changed the way people communicate such as through emails (electronic mail), texting and even phone calls as well as video chat through the use of webcams and websites such as Skype. Information technology through these advantages has been able to bring the world together and so this has allowed us to share information throughout the world extremely quickly as well as

being efficient in the way this information is sent and retrieved. People as a whole are nowadays able to chat globally to anyone throughout the entire world through the use of social networking websites. These websites include those such as Facebook, Twitter and my space as well as image sharing websites such as Instagram. This...
