Browse all Canada Goose > Fit Definitions Slim Fit : These garments have an athletic cut and are designed to fit closer to the body. This fit maximises mobility while maintaining core warmth Regular Fit : Garments which are designated regular fit often have enough room for layering pieces underneath them. They are a good balance between the slim and the relaxed fit. Relaxed Fit : Relaxed fit is Canada's Goose's largest fit. Corresponding styles have been developed for layering in extreme weather and industrial applications. *Please note - Measurements refer to body size, and not garment size. Ask them here. Got questions about anything else? Please see our FAQ.Q: "do you keep these in stock? i am coming across to wdw at Christmas and want to buy one of these whilst I am over there. ideally red but failing that blue"1 Answers | Answer QuestionQuestion by simon on 9/28/2012 - 5:45 pmA: "These are one of Canada Goose's best selling jackets! We get them in stock every season. They do sell quickly so if you like one that you see I would recommend buying one now to insure you get the size that you like."Answer by Sarah (Peter Glenn Staff) on 10/1/2012 - 4:13 pmQ: "Hey! before I buy anything, I just want to know if the jacket is real or fake! i just bought a CG from a scam site... i got the jacket, but the jacket is fake, please answer me :) thank you!"1 Answers | Answer QuestionQuestion by Kevin on 10/9/2012 - 10:17 amA: "We absolutely are an authorized dealer of CG. All of the CG products that we sell will have their authentic hologram. You can always go to the Canada Goose website and search for authorized resellers and we are listed at our brick and mortar stores and as a web-based seller as well. Online approved retail list for Canada Goose."Answer by Jaime (Peter Glenn Staff) on 10/10/2012 - 12:58 pmQ: "Is the hood removable?"1 Answers | Answer QuestionQuestion by C.GoosLover on 10/14/2012 - 1:49 amA: "The hood is not removable. This ensures that you stay protected from the cold and gives you ultimate warmth."Answer by Sarah (Peter Glenn Staff) on 10/16/2012 - 10:16 amQ: "how much does the canada goose xdl mens expedition parka weigh"1 Answers | Answer QuestionQuestion by george on 10/31/2012 - 4:30 pmA: "All packed up and ready to go this jacket in size XXL has a weight of 6.5 lbs!"Answer by Sarah (Peter Glenn Staff) on 10/31/2012 - 4:42 pmQ: "I wear a size Extra Large in most coats. Will this size in the Expedition Parka allow me to wear a sweater or layers underneath it?"2 Answers | Answer QuestionQuestion by Bob Henry on 12/25/2012 - 3:33 pmA: "These jackets are built to be very roomy. You will have no problem wearing layers underneath."Answer by Sarah (Peter Glenn Staff) on 12/26/2012 - 9:16 amA: "You won't need anything other than a shirt under one of these as I have owned mine for five years....I rarely wear anything under mine but a light sweatshirt. You will be surprised how warm and yet light these parkas are."Answer by Joe on 5/28/2014 - 3:56 pmQ: "Is this a good jacket for warmth and durability?"1 Answers | Answer QuestionQuestion by David on 2/5/2013 - 11:16 amA: "Absolutely! This is a very heavy duty jacket that will keep you extremely warm!"Answer by Ashley (Peter Glenn Staff) on 2/5/2013 - 11:39 amQ: "Is the hood real fur? I know CG coats usually are.. but wondered if this was"1 Answers | Answer QuestionQuestion by Cameromnnn on 2/14/2013 - 3:19 pmA: "It most definitely is. They use coyote fur around the hoods of their jackets because it never freezes, doesn't hold water, and the uneven hair lengths create a windbreak that protects exposed skin, helping to reduce heat loss from the face. Faux-fur does not have the same protection."Answer by Sarah (Peter Glenn Staff) on 2/14/2013 - 3:29 pmQ: "My question is regarding sizing of the Canada Goose Expedition Parka. If usually wear size 8 or 10 womens clothing, I heard the parkas run big, but I will want to wear layers. Should I get a Medium or Large, I am also 5' 10". The next question is what size would I get if I were to order a mens parka. I like the forest green in the mens size."1 Answers | Answer QuestionQuestion by thess on 11/5/2013 - 4:52 pmA: "If you are wearing a women's jacket I would recommend the size medium as these do run large even with layers. You would be a small in the men's version."Answer by Sarah (Peter Glenn Staff) on 11/6/2013 - 10:37 amQ: "Hi guys, my height is 5 feet 8 inches, weight is 154 pound, which size should I pick? My chest is 37 inches. I saw a comment on amazon says that anyone who is less than 6 feet tall should pick XS, can you confirm this? Thanks in advance! p.s. I'm male."1 Answers | Answer QuestionQuestion by Raymond Li on 12/15/2013 - 5:20 amA: "We have provided a size chart that you can check out to see the measurements for each size. For a size small, it says that that is the best size for someone with a chest size of 36-37" so it sounds like a size small would be best for you."Answer by Martha (Peter Glenn Staff) on 12/15/2013 - 3:35 pmQ: "I'm 6'5. Would a L fit?"1 Answers | Answer QuestionQuestion by Couls19 on 2/3/2014 - 11:12 pmA: "You should try an XL as a L would be to short."Answer by Katie (Peter Glenn Staff) on 2/4/2014 - 9:53 amQ: "Hello, where are these jackets made? WHAT COUNTRY? Thank you."1 Answers | Answer QuestionQuestion by Elena on 2/22/2014 - 11:27 pmA: "These are currently made in Canada."Answer by Martha (Peter Glenn Staff) on 2/25/2014 - 2:11 pmQ: "I'm 6'4" and weight about 215lbs. I have a thin build & have long arms. Will a XL fit me or should I really buy an XXL.I do like a relaxed fit when buying clothes."1 Answers | Answer QuestionQuestion by Cool Bee on 3/15/2014 - 12:10 amA: "Canada Goose jackets can run a bit large. It's best if you check your measurements against the size chart to see what size is suggested for you based off of your measurements. If you are in doubt, feel free to try one size down as these jackets can run large and some people do find that they need to size down."Answer by Martha (Peter Glenn Staff) on 3/18/2014 - 1:16 pmQ: "Hello. Isn't this jacket too warm if an average winter temperature in my region is from -15 to -20 Celsius? How is it comparing to Citadel Parka? And do you ever offer Expedition Parka in white?"1 Answers | Answer QuestionQuestion by igor.bearyn on 9/14/2014 - 10:00 amA: "This jacket would be perfect for that temperature! We do not have it on order in white. We only have the black color on order as of right now. The Canada Goose Citadel Parka is actually going to protect you against water a bit better than this jacket, it is also a bit longer and offers a removable fur trim on the hood. The fur on the hood of this jacket is attached and cannot be removed."Answer by Sarah (Peter Glenn Staff) on 8/14/2014 - 2:46 pmQ: "Hi! my height is 6 feet 2 inches, weight is 187 pound, which size should I pick? My chest is 42 inches. Thanks in advance! p.s. I'm male."1 Answers | Answer QuestionQuestion by Igor on 10/8/2014 - 4:21 pmA: "Based solely on your chest measurements we would recommend going with a size Large. You can view our full size chart here to guide use the other measurements to give you a more accurate fit."Answer by Kacy (Peter Glenn Staff) on 10/8/2014 - 4:26 pmQ: "I am 5'10, 188 pounds, and 39" of chest. Which size best fits for me ?"2 Answers | Answer QuestionQuestion by Richard on 10/17/2014 - 1:51 amA: "Based on the measurements you have given us we would recommend going with a size Medium. You can view the size chart here and look at the waist and hip measurements to give you a more proper guide to the size you will need."Answer by Kacy (Peter Glenn Staff) on 10/17/2014 - 8:39 amA: "I'm 6'2, 255 with a large chest, 44in, small gut and 32" thighs. XL works great. It bulkier as expected, but not restrictive. Top sub freezing weather jacket. Lacks the flair of a Moncler or Mackage, but makes up for it in performance. Very warm, maybe too warm for extended hikes and physical exertion in say 0°C. If it -50°C then you're set with one of the best on the market."Answer by Euro traveler on 12/23/2014 - 5:39 pmQ: "Hello, I'm 6'2, 280lbs, broad chest, 44" waist 36"/37" sleeves, will a XXL fit me."1 Answers | Answer QuestionQuestion by Help! on 1/15/2015 - 10:03 amA: "It sounds like the XXL would be the right size for you!"Answer by Sarah (Peter Glenn Staff) on 1/16/2015 - 1:25 pmQ: "Are they waterproof? I see the part about dvr but is that something that needs reappplied? On other jackets like Spyder you have a scale but not with Canada goose"1 Answers | Answer QuestionQuestion by Wayne on 3/1/2015 - 2:52 amA: "We do list that the fabric is water REPELLANT not water PROOF. It does have the DWR that will need to be refreshed over time."Answer by Martha (Peter Glenn Staff) on 3/2/2015 - 3:52 pmQ: "Hey I usually wear a xl in coats I'm 5'9 and weight about 250 just wondering if you think a xl would fit or if it don't what size do you recommend"1 Answers | Answer QuestionQuestion by Brandenk26 on 9/21/2015 - 1:09 pmA: "The best way to tell what size would be best is by taking a few simple measurements. The XL is a 44-46 inch chest, 37-39 inch waist, and a 44-46 hip."Answer by Holland K (Peter Glenn Staff) on 9/22/2015 - 8:35 amQ: "I am 6'4" tall and weigh 310 lbs with a 56 chest. Will the Canada Goose Expedition 3xl fit without being "snug"?"1 Answers | Answer QuestionQuestion by sunmecca on 10/10/2015 - 11:11 amA: "This jacket has a relaxed fit which means it does not fit snug, yet it does not fit baggy. According to the accompanying size chart, a 3XL will fit you."Answer by Christina (Peter Glenn Staff) on 10/12/2015 - 4:42 pmQ: "Is there any way to have a Canada Goose Expedition Parka special made in size XXXL (3XL)?"1 Answers | Answer QuestionQuestion by chuck on 2/23/2016 - 10:54 pmA: "If 3XL is your normal clothing size, most people find that they can size down one size in the expedition and still have room."Answer by Kyle (Peter Glenn Staff) on 2/24/2016 - 9:58 amQ: "Hi just wondering if you could tell me the difference between the expedition parka and the Citadel one? Thank you"1 Answers | Answer QuestionQuestion by Max on 4/19/2016 - 3:00 amA: "The Expedition is going to be shorter than the Citadel by about 1.75 inches. The Expedition also has a slightly higher fill power for the insulation than the Citadel. Those will be the main differences between the two parkas. The warmth, fit, and water resistance will be highly similar for the Citadel and the Expedition!"Answer by Julia (Peter Glenn Staff) on 4/19/2016 - 8:53 am
