To do this, you may need another program, such as WinZip or 7-Zip, to open it, even if you may also be able to open it from the left or right-clicking if your device has arrived with the ability to open zip files. In many cases, however, downloading an app is as simple as clicking a button on the app page. I recently played an episode, I came across an ad, I decided to try it. When I started, I chose the I I category They gave me great tips and I got hooked up very quickly. All about history, drama, surprises, there's so much commitment to the story, and I saw it. I love the episode of stories provides us, although there are some issues/ concerns. Since I have used Episode recently, I have paradisiac--vetha used my money on it; Sometimes a character asks me to do something, and I want to do it, but I have to pay the diamonds to say yes. Otherwise won't let me say yes. This frustrates me because we love history, it makes me sad to see it. Most of the time, the character has a " outfit" outfit, it gives you good options that you might choose to wear, but to get the clothes you have to pay diamonds. I understand you want money, but this frustrates me, that sometimes I stop reading a story. I read some reviews of parents who say this game is inappropriate because it has s\*x in it. First: some children learn to this in fifth grade, provided by the health class, so they won't be disturbed very much. Second, they should monitor their son, so it is the fault of Episode226t:226; 128t Third: It gives you a warning before you or your son read the story. I also think Episode is for anyone 10+, it only depends on how mature you/they are. We hope this review will help anyone. Thank you for reading. I love this game. The only thing I would suggest is to get where instead of using diamonds to choose the best option in the history we read, why not use our diamonds for tickets? Only four tickets are granted to us in an amount of time allocated. Why not buy tickets with diamonds and let us make our decisions in the game without being charged for them? And instead of having one diamond at the end of each episode, why not make two diamonds? Each ticket should cost a diamond into be able to continue reading. You can still offer your deals to buy diamonds and tickets, but for the people who use this app to read the stories they love and The reality to enter fiction would be more beautiful and more combined for us. As for the design, please add more backgrounds and perhaps add music that people listen too daily to turn the story around their preference! There are a lot of stories involving parties and dance and the music to which you hear sounds as it came from the first 20000â s version of strawberry shortcake. We can customize how our characters and their names are. Why canâ 128;t we also choose the music we like? You can make security features that make you check how many years you are so you know what musical content is suitable for younger and older ages. Again these are just suggestions and the app is amazing. But it seems to me that tips are more suitable for your users. Okay, before I get into this story, I'd like to say I read this app for over four years. I've seen a lot of changes, good and bad. I love this app and it's a great opportunity to put you in the game by writing unique stories. There's a couple of issues I noticed playing. My first concern is the length of the episodes. I found some great stories out there, but it's only 12 long episodes. How the hell do you expect me to go into a story with 12 episodes? I understand you don't want to go through the episodes forever, but why do you have such short stories? Another thing I noticed is the diamond problem. I know I'm not the only person to talk about it. I don't like having to pay the 30 diamonds for one choice. I don't even like there's five chances of diamonds in one episode. How do I love this app when I have to pay to follow the path I want? It's not fair for the reader. I know you want to take advantage of your app, but this is too much. You should give us more opportunity to earn diamonds. Play mini games! Then we can play them to have some! Just know I'm not gonna keep using this app if something doesn't change. You two are... you are. A lot of readers because you're all hungry for money. Thanks for reading! Press and press "Help" if you want to change anything in this app!
